

YOU IMAGINE, WE CREATE

Long time client USA Technologies came to us wanting a rental exhibit for the NAMA show.

They needed it to fit their 30 x 40 space and allow them to show product demonstrations, have meetings and create an environment that was warm and inviting.

The resulting custom-rental booth used light weight fabric headers, curved video wall and multiple work stations. The open semi-circular central area and lounge seating areas promoted comfortable engaged conversations.

"You created the exact booth we envisioned!
Thank you DSM."

YOU IMAGINE, WE CREATE

USA Technologies at NAMA

- Corporate branded headers are fabric wrapped for easy customization of rental components
- Client owned work stations were converted with vinyl wrapped graphics

At DSM we pride ourselves at being nimble enough to work with your deadlines... no matter how challenging.

"Jamie you take the worry out of exhibiting. When I work with DSM on a project, I know that it will get done!"
